

# Essence

*Our wine philosophy in terms of style and structure is simple, wines that are true to their nature and that complement our style of food.*

*"The Great Recession downsized bloated library-style wine cellars and ushered in an era of concise, pared-down lists. At the same time, importers and sommeliers have championed the value of hidden regions and grape varieties. This has brought a kaleidoscopic swath of options to the market, the range of which diners have now come to expect.*

*Keeping things unintimidating and light, even in the face of a more challenging and esoteric list, seems to be a touchstone of the modern wine-list experience—and this brand of approachable service softens the edge of an offbeat list.*

*We have taken pleasure in studying the balance on spices, flavours & aromas to perfectly pair with over 60 wines from the menu.*

*Atul Kochhar*
